

# FLEECE TAPE

**NORGIPS®**

Fleece tape for reinforcing plasterboard joints

## PRODUCT DESCRIPTION

Fleece tape, width 50 mm, made of fibreglass. Modular product belonging to the accessories category.

## INTENDED USE

Designated for reinforcing joints of gypsum plasterboards in indoor plasterboard lining systems. Recommended for tapered (longitudinal) and butt (transverse) joints. The tape should be melted into the construction compound, being a part of the system, previously applied to the joint.

## TECHNICAL PARAMETERS

Material	Fibreglass non-woven fabric
Width [mm]	50
Colour	White
Application temperature [°C]	5 to 40

Plasterboards + Profiles + Compound + **Accessories** = NORGIPS Solution

**ADVANTAGES**

- **Fire safety.** Tested as a part of fire protection systems with declared fire resistance rating.
- **Tape marking.** Designations for easy product identification.

**NOTES FOR GUIDANCE**

The tape requires indoor storage.

Do not expose directly to weathering effects. Use the accessories in accordance with manufacturer's recommendations and design guidelines.

Consult any other area of application with the design engineer.

**DIMENSIONS AND PACKAGING**

Width [mm]	Length [m]	Type of packaging	Number of units in a packaging [pcs]
50	25	Cardboard	40
