

PAPER TAPE METAL REINFORCED

Tape for reinforcing inner and outer edges

NORGIPS®

PRODUCT DESCRIPTION

Paper tape, width 50 mm, with metal inlay. Modular product belonging to the accessories category.

INTENDED USE

Designated for reinforcing inner and outer edges in indoor plasterboard lining systems based on gypsum plasterboards. The tape should be melted into the construction compound, being part of the system. When applying, the paper layer should be placed at the outside of the lining.

TECHNICAL PARAMETERS

Material	Paper + metal inlay
Width [mm]	50
Colour	White
Application temperature [°C]	5 to 40

Plasterboards + Profiles + Compound + **Accessories** = NORGIPS Solution

ADVANTAGES

- **Strength.** Metal inlay for higher impact resistance.
- **Tape marking.** Designations for easy product identification.

NOTES FOR GUIDANCE

The tape requires indoor storage.

Do not expose directly to weathering effects. Use the accessories in accordance with manufacturer’s recommendations and design guidelines.

Consult any other area of application with the design engineer.
